ILLUSTRATOR

DREAMWEAVER

CORALDRAW

MICROSOFT

EDUCATION

I graduated with a Basic and Advanced Certificates in Adobe Photoshop, InDesign and Illustrator. The past two years I have furthered my skills with Adobe Muse and Corel draw.

WORK EXPERIENCE

Past - In 2014 I started working at a local newspaper as a Graphic Designer and soon was working on the two local newspaper's websites. I was administering the social media networks too, and was sending the Bulk weekly newsletter on a weekly basis.

Present - I started working at a bigger company early in 2016, where I am part of the Marketing and design team. This year I am focussing more on expanding my services as a Freelance Graphic Designer, hoping to work with some great clients on great projects.

Là Fora Designs - Creative Solutions

My freelancing services go by the name - Là Fora (which means "Out there") Designs.

I am working on expanding my services as a Freelance Graphic Designer, hoping to work with some great clients on great projects. Along with my freelance service, I have added Stiki art - Vinyl Business that includes beautiful home decor and all kinds of custom sticker work.
